

LIVE WEBINAR

Bone health optimization in the orthopaedic setting

Saturday, 31 July 2021 | 11:00–12:00

Register
NOW!

Registration deadline: Saturday, 31 Jul 2021 | 10:00

Orthopaedic setting can play an active role in evaluating and optimizing their patients' bone health to help prevent secondary fragility fractures in older adults and to improve post-surgical outcomes in many other orthopaedic scenarios.

In this webinar, we will explore the expanding role of orthopaedics in the management of post-fracture patients and bone health optimization.

Agenda

11:00	Welcome & introduction <i>Dr Sheung Wai LAW, Hong Kong</i>
11:00–11:45	Bone health optimization in the orthopaedic setting <i>Dr Paul ANDERSON, US</i>
11:45–12:00	Q&A session <i>All</i>
12:00	Closing remarks <i>Dr Sheung Wai LAW, Hong Kong</i>
